

Checklist for Vacating Unit...

Your security deposit is refundable depending on the condition of your unit as you leave it. Any charges, if acquired, throughout the year will be deducted from your deposit as well if any were charged such as late fees, bounced check fees, unpaid rent, any maintenance requests that fall under tenant fault, any charges related to lease terms and any rules that were broken, etc., we do not always notify for every charge but have kept records of charges. *As an example late fees are charged if rent is turned in past the 3rd of any month. This is stated in the lease and in the move in information. Any or all charges will include an invoice with your deposit refund.

We would encourage you to leave your unit as it was at your move in day. We would like to be able to refund your deposit back to you and not have to do all the work to get the unit ready for the next group. We do charge for time and materials if we are left to repair and clean your unit after your move out day. These charges are subject to contractor rates and material rates. We try to find the fairest rates.

We do expect the unit to be professionally cleaned, as it was when you moved in. If the unit is not professionally cleaned we will schedule our company to clean the unit including any carpets to be steam cleaned. We are happy to schedule the cleaning and the amount will be deducted from your deposit refund and a copy of the bill will be included. If they do not clean to professional specifications and do not guarantee their work we will have to call our company in to re-do the cleaning and you will be charged again for cleaning out of your security deposit. If you ordered from a different company we will NEED a copy of the cleaning bill from them to keep on file so we do not order our service to clean your unit. We need this bill turned in within 3 days of your move out day. Otherwise we cannot be responsible for knowing to not schedule our cleaners to come in.
